RESEARCH INTERESTS

• computational cognitive science • theoretical neuroscience • artificial neural networks

EDUCATION

University of Michigan–Ann Arbor, Ann Arbor, Michigan USA

School of Engineering, Ph.D. in Computer Science & Engineering, Expected May 2022

University of Southern California, Los Angeles, California USA

Viterbi School of Engineering, M.S. in Computer Science, May 2017

Advisor: [Yan Liu](#)

Stony Brook University, Stony Brook, New York USA

College of Arts and Sciences, B.S. in Physics, May 2015

Advisor: [Axel Drees](#)

Honors Thesis: “*Modeling a Detection of Internally Reflected Cherenkov Light Particle Detector for High-Multiplicity Heavy-ion Collisions*”

Honors and Awards:

- Provost Award for Academic Excellence ($\sim 0.5\%$ of graduates chosen), 2015
- Researcher of the Month (1 school-wide per month), 2014

Brooklyn Technical High School, Brooklyn, New York USA

Diploma in Applied Physics, May 2011

Honor: USA National Achievement Scholarship Finalist (top 5% nationally), 2011

PROFESSIONAL EXPERIENCE

Machine Learning Research Intern, *September 2017 - December 2017 (expected)*

IBM Almaden, San Jose, California USA

Machine Learning Research Intern, *June 2017 - August 2017*

VISA, Palo Alto, California USA

HONORS AND AWARDS

University of Michigan Rackham Merit Fellowship

2017

GEM Fellowship sponsored by IBM (declined)

2017

ICLR Travel Award

2017

NSF Graduate Research Fellowship (Neuroscience)

2015

HHMI Minority Undergraduate Research Fellowship

2014

Sigma Pi Sigma Physics Honor Society (only 2nd year student inducted)

2013

Scholar of Science, Technology, Engineering and Math

2012

NSF Louis Stokes Alliance for Minority Participation Scholar

2011

Deans List

2011-2015

CONFERENCE PUBLICATIONS

Sanjay Purushotham*, **Wilka Carvalho***, Yan Liu. “Variational Recurrent Adversarial Domain Adaptation” *In 5th International Conference on Learning Representations (ICLR)*, 2017

Sanjay Purushotham*, **Wilka Carvalho***, Yan Liu. “Variational Adversarial Deep Domain Adaptation for Health Care Time Series Analysis” *In 29th Annual Conference on Neural Information*

Compiled November 17, 2017

* implies equal contribution

Processing Systems Workshop on Machine Learning for Healthcare (NIPS ML4HC), 2016 (**Spot-light**)

Wilka Carvalho. “Modeling a Detection of internally reflected Cherenkov light (DIRC) Particle Detector for High-Multiplicity Collisions.” *State University of New York Undergraduate Research Conference* (SURC), 2015

INVITED TALKS Machine Learning Lunch Seminar. University of Southern California. (April, 2017)

SYMPOSIUM “Variational Adversarial Deep Domain Adaptation for Healthcare Time Series.” *Southern California Machine Learning Symposium*. California Institute of Technology, Pasadena, CA, 2016. **Runner-up, Best Poster. Worth \$1000 in Amazon AWS credit.**

PRESENTATIONS “Modeling a DIRC Particle Detector for High-Multiplicity Collisions.” *23rd Annual CSTEP Statewide Student Conference*. Bolton Landing, NY, 2015. **2nd Place, Physics and Math**

“Modeling the Cognitive Process of Attributing Traits to Others.” *Summer Seminar Day*. California Institute of Technology, Pasadena, CA, 2014.

“Modeling Deep Brain Stimulation of Globus Palidus Internus.” *22nd Annual CSTEP Statewide Student Conference*. Bolton Landing, NY, 2014.

“Modeling a Detection of internally reflected Cherenkov light (DIRC) Particle Detector for High-Multiplicity Collisions.” *URECA Celebration of Undergraduate Research & Creativity*. Stony Brook University, Stony Brook, NY, 2014.

“Modeling Deep Brain Stimulation of Globus Palidus Internus.” *Poster Symposium*. University of Minnesota, Minneapolis, MN, 2013.

RESEARCH **IBM Almaden**, San Jose, California USA

EXPERIENCE **IBM Research**, *September 2017 - Present*

- Contributed to novel research algorithm by suggesting subspace projection technique that increased our performance from 15% to 95% accuracy. Designed and implemented environment for testing algorithm.
- Developed baseline and state-of-the-art neural networks using Tensorflow.
- Built data pipeline for large image dataset.

Visa, Palo Alto, California USA

Visa Research, *June 2017 - Present*

- Formulated a novel neural network for learning a language model.
- Implemented model and baselines for language generation and question answering using Tensorflow and Facebooks ParlAI NLP software.
- Performed extensive literature reviews on machine reading comprehension and generative models.

University of Southern California, Los Angeles, California USA

Melady Machine Learning Lab, *November 2015 - May 2017*

Advisor: Yan Liu

Samsung and NSF funded project: “*Variational Adversarial Deep Domain Adaptation for Health Care Time Series Analysis*”.

- Implemented novel neural network that employed variational inference and adversarial training for transfer learning of multivariate time-series.
- Proposed analyses used in publications to empirically verify that our model (a) performed domain adaptation by creating domain-invariant representations and (b) transferred temporal dependen-

cies across domains. Research led to 2 publications and a patent.

- Communicated research to general public through research feature by the USC Graduate School and to technical audience at ICLR poster presentation.

Stony Brook University, Stony Brook, New York USA

Heavy Ion Research Group, *January 2013 - August 2015*

Advisor: Axel Drees

DOE funded project: “*Modeling a Detection of internally reflected Cherenkov light Particle Detector for High-Multiplicity Collisions*”.

- Built and maintained a simulator in C++ for the heavy ion particle detector at the Brookhaven National Laboratory.
- Contributed methods from multivariate calculus and linear algebra to particle detection algorithm. Accuracy improved from 60% to 80%.
- Designed and implemented a statistical analysis pipeline in C++ for measuring efficacy of particle detection algorithm.

Stony Brook University, Stony Brook, New York USA

Computational Neuroscience Group, *Fall 2014*

Advisor: Giancarlo La Camera

NSF LSAMP funded project: “*Spectral Analysis of Rodent Neural Data*”.

- Performed spectral analyses on neural data to determine behavioral correlates of neural activity.

California Institute of Technology, Pasadena, California USA

Emotion and Social Cognition Laboratory, *Summer 2014*

Advisor: Ralph Adolphs

HHMI funded project: “*Modeling the Cognitive Process of Attributing Traits to Others*”.

- Formulated a trait learning behavioral experiment to study human inference.
- Built online platform to administer psychology experiments using Javascript, PHP, and HTML.

University of Minnesota, Minneapolis, Minnesota USA

Neuromodulation Research and Technology Laboratory, *Summer 2013*

Advisor: Matthew Johnson

NIH funded project: “*Modeling Deep Brain Stimulation of Globus Pallidus Internus*”.

- Implemented python script to build a biologically feasible computational model of neural networks
- Created template for using python to simulate deep brain stimulation with “Neuron” software

National Central University, Jhongli City, Taiwan

Turbulent Combustion Laboratory, *Summer 2012*

Advisor: Shenqyang Shy

Project: “*Empirical Analysis of Theories from Fluid Dynamics*”.

- Explored boundary layer conditions, and laminar and turbulent flow of fluids through pipes of varying cross-sections.

TEACHING EXPERIENCE

Stony Brook University, Stony Brook, NY

Calculus Instructor, *Spring 2015*

Worked with two math professors to develop and teach a supplementary calculus curriculum that promoted minority representation in stem majors.

Stony Brook University, Stony Brook, NY

Educational Opportunity Program Personal Tutor, *Spring 2013 - Fall 2014*

Tutored marginalized students in introductory physics and math courses.

SERVICE

Student Volunteer, ICLR, 2017

OUTREACH	<i>Research and Fellowships Week NSF Panel</i> , Los Angeles, CA 2016 <i>National Society of Black Engineers Grad Panel</i> , Los Angeles, CA 2016 <i>Graduate School External Fellowship Boot Camp</i> , Los Angeles, CA 2016 <i>Engineering Graduate Diversity Symposium</i> , Los Angeles, CA 2015 <i>Black Student Association: What it takes to go to Graduate School</i> , Los Angeles, CA 2015 <i>Collegiate Science and Technology Entry Program Undergraduate Research Panel</i> , Stony Brook, CA 2014
SKILLS	Deep learning software: TensorFlow, Theano, Keras Neuroscience software: Neuron Languages: Python, C++, C, Java Operating systems: Unix, Linux, Windows
